2020	5-Sept 6 Sept Please Note: change of date!)	379/website	Tessellated Pavement & Clyde Island, Eaglehawk Neck Report: Bulletin #380 October 2020	<p>Leader: Dr Simon Grove</p> <p>What are we looking for? Anything of interest! It's a good place for all sorts of marine life, Simon will be on hand to help identify molluscs and any seashore insects we may find!</p> <p>Suggested route: Follow the shore from the Tessellated Pavement towards Clyde Island. That takes in a sandy as well as a rocky shore. The sandy shore is good for seeing shells and other life that has been washed up, while the rocks are good for seeing the species that live there at different zones on the shore. If the tide's not out far enough to cross to the island, so be it. The tideline there tends to have bands of smaller shells to fossick amongst, and the boulders and pools in front of the island are good for finding the living animals.</p>	<p>Meet: 2pm (to catch the receding tide)</p> <p>Where: Park in the Tessellated Pavement Car park <u>opposite</u> the Lufra Hotel, Pirates Bay Drive, Eaglehawk Neck, Tasman Peninsula.</p> <p>Note: This a conservation area (state reserve) so things can be looked at but should be returned before we leave.</p>
2020	4-Oct 11 Oct	379	Marion Bay wetlands Report: Bulletin #380 October 2020 Full report to be in 2021 'The Tas Naturalist'	<p>Leader: Dr Vishnu Prahald</p> <p>In the morning we will be visiting private property 'Marchwiell Marsh', behind the beach to learn about the research and rehabilitation of these wetlands</p> <p>BYO drinking water/lunch and good waterproof boots/shoes may be helpful!</p> <p>BYO Hand sanitiser and please continue to social distance!</p> <p>In the afternoon after the Club excursion, stay on to explore the beach or lagoon or head for home!</p>	<p>Meet at Marion Bay Car Park (at the end of Marion Bay Road) at 10am REMEMBER Daylight saving starts on Saturday night! Dreadful weather forecast, so postponed by a week.</p>

				owned by the Tasmanian Land Conservancy. (Observations recorded on iNaturalist)	back via Sheffield, Elizabeth Town, and Campbell Town
2022	8 May	Website/Email	To the Native Grassland on the Queens Domain Report: Bulletin #387 July 2022	Professor Jamie Kirkpatrick (UTAS) Geographer and conservation ecologist. will be giving us a fresh perspective as we walk through Tasmanian native grasslands (Observations recorded on iNaturalist)	10:00 AM to 1:00 PM Meet at the car park at the very top of the Queens Domain, Hobart. We will walk about 3 kms and intend to finish by 1.00 PM. Jamie has requested everyone wear masks. The June General Meeting's talk will consider native grasslands in more depth .
2022	5 June	Website/email	Betsey Island on the Odalisque Report: Bulletin #387 July 2022	Parks Ranger Ian Marmion will lead this excursion (Observations recorded on iNaturalist)	The cost of the excursion will be \$105 for each person. Bookings are essential and can be made via Trybooking If the excursion does not proceed, all bookings will be fully refunded. We will depart from the wharves at 6-8 Negara Crescent, Goodwood , which are on the Prince of Wales Bay. Advantages include easy and secure parking. Please arrive before 9:15 AM so the gates can be locked and allow us to leave by 9:30 AM. In the unlikely event of significant changes to the weather forecast, the captain of the <i>Odalisque</i> may still cancel the event and bookings will be fully refunded.
2022	9 July	Website/email	Timbs Track, Florentine Valley Report: Bulletin #388 Oct 2022	Several years ago, Timbs Track (also spelled on some maps as Tims Track) in the Florentine Valley was the location of forest protest activities. It features very tall eucalyptus forest with a rainforest understory and at this time of year should have a good display of fungi. The tracks through the forest are not difficult to walk	Timbs Track is on the sealed Strathgordon Road, about 2 hours' drive from Hobart. Drive towards Strathgordon, past National Park and Maydena, over the high pass between the Needles and Tim Shea, and the track will be found in the broad valley below, located halfway along a particularly long straight. The track signpost and parking are located on the right-hand side of the road. Meet at the carpark at 10am. <i>Back-up plan for bad weather: If the weather forecast is for the</i>

				(Observations recorded on iNaturalist)	west of the State to be wet but reasonable in the east, the excursion will instead go to Waterfall Bay near Eaglehawk Neck on the Tasman Peninsula. Such a change in plan will be notified by Wednesday night 6 th July at the latest.
2022	6 Aug	Excursion cancelled	Waterfall Bay, Tasman Peninsula	Excursion cancelled due to inclement weather Tasmans Arch and Waterfall Bay are part of the Tasman National Park near Eaglehawk Neck.	Meet at 10am in Tasmans Arch carpark. It is about a 80 to 90 minute drive from Hobart. As soon as you cross Eaglehawk Neck, turn left onto Blowhole Road towards Penzance, Doo Town, Tasmans Arch and the Tasman Blowhole. After 3 km turn right onto Tasmans Arch Road. We will meet in the Tasmans Arch car park. A pleasant 2 km walk along the Tasman Coastal Trail, a safe clifftop track, leads to the Waterfall Bay lookout. If there has been a good rain in the previous few days, we will find out why it is called Waterfall Bay! Many will want to continue 2 km further around Waterfall Bay to Camp Falls and Waterfall Bluff.
2022	3 Sept	Website/email	Mortimer Bay Track Report: Bulletin #388 Oct 2022	In memory of the passing of TFNC life member Priscilla Park, we will meet at the Priscilla Park Entrance at the southern end of Gorringes Beach, Mortimer Bay (Observations recorded on iNaturalist)	The Mortimer Bay Track is part of the Tangara Trail that criss-cross the Sandford- South Arm area., we will meet at the Priscilla Park Entrance at the southern end of Gorringes Beach, Mortimer Bay at 10am It is located on Gellibrand Drive, Sandford, about 30 minutes' drive from the centre of Hobart. The full circuit is 12 km so it is likely most members will only do part of it. More information is available from https://www.ccc.tas.gov.au/places/tangara-trail-mortimer-bay-circuit/ .
2022	Oct	Website/email	TLC Property at Little Swanport Reserve	In 2019 the Tasmanian Land Conservancy protected 150 hectares on the North	Meet at parking area at the reserve at 10am.

			Report: Bulletin #388 Oct 2022	<p>side of the Little Swanport River https://tasland.org.au/reserves/little-swanport-reserve/ .</p> <p>The TLC has provided a map showing the reserve, its location, and access..</p> <p>See map here: Little Swanport Reserve Visitation Map</p>	<p>It is located about halfway between Triabunna and Swansea on the East Coast. From Hobart it is about 1 hour and 40 minutes' drive (110km) along the Tasman Highway. Travelling northward from Hobart up the Tasman Highway, the bridge over the Little Swanport River is located approximately 20 minutes' drive (25 kms) north of the township of Triabunna. A little under 1km after crossing the bridge over the Little Swanport River, take the road first left off the Tasman Highway into Bresnehans Road.</p> <p>About 300 m along Bresnehans Road, turn into a quarry and park there.</p>
2022	Nov	Website/email	<p>Mountain River</p> <p>Report: Bulletin #389 Jan 2022</p>	<p>Following on from John Gooderhams Waterbugs talk John will give us a hands -on introduction in the use of his 'Waterbugs' app to identify the invertebrates of Mountain River</p>	<p>Meet at 10am From Hobart take the Huon Hwy to Grove and turn right into Mountain River. After about 6km the road crosses Mountain River. Parking is available on the far side of the bridge. Car pooling could be helpful. Bring gumboots or waders</p>
2022	Dec	Website/email	<p>Christmas BBQ Randalls Bay</p> <p>Report: Bulletin #389 Jan 2022</p>	<p>If driving via Huonville and Cygnet along the Channel Highway, the turn off to Randalls Bay is about 15 mins after Cygn.t</p>	<p>Meet at 12 noon. BYO everything . After the BBQ members may like explore the nearby Echo Sugarloaf circuit track or the shorter walk on the headland at the western end of the beach</p> <p>Dr Genevieve Gates ANHM presentation will be made to her at this BBQ.</p>
2023	Feb 12/13	Website/email Bulletin #390	Vale of Belvoir	Dr Keith Corbett	<p>At our Easter Camp, Keith and Syb Corbett introduced us to the sub-alpine grasslands and rainforest of the Vale of Belvoir. It stimulated our interest in a unique area and Keith and Syb would like us to return to survey the vegetation and wildlife of their block when the grasslands are at their peak of flowering. Being 4 ½ hours driving time from Hobart without breaks, many may want to book accommodation overnight for both Friday 10th and Saturday 11th nights. Accommodation in the area is used for visitors to Cradle Mountain, and being the peak of tourist season, anyone interested</p>

					will need to make bookings early before they book out. More details about the excursion will be provided closer to the excursion. In the meantime, for more information about the Vale of Belvoir, please look at Keith's 2012 article in <i>The Tasmanian Naturalist</i> https://www.tasfieldnats.org.au/naturalist/ .
2023	March4	Website/email	Big Bend Trail	The track features subalpine heaths and snow gum forest and in early March should have good insect life	The Big Bend Trail on Mt Wellington has been improved making it a much easier track to walk on. We will meet at the Pinnacle Road Car Park about 500m past the Big Bend Trail. This is about 2km past the Chalet. From the car park we will walk back down the road to the Big Bend Trail..... Those fleet-of-foot might like to climb Tom Thumb or make a circuit by returning via the Devils Throne Track and Thark Ridge Track. Being high altitude, if the weather is poor the excursion may be postponed to Sunday.
