

## TFNC LIBRARY CATALOGUE

Location of Book. Box #	Category	Sub category	Title	Author(s)	Year	Publisher	Comments	Date purchased/Donation etc.	Type
1	Biography		A Century Afield - A History of the Tasmanian Field Naturalists Club	Fenton, Janet.	2004	TFNC	A history of TFNC to 2004		168pp. Softcover. B&W photos; lists club archives at back
1	Biography		A King Island Settler's Tale	Paterson, Jim	2001	Self published, Hobart	Reminiscence, observation and description of an interesting island and a way of life gone by, from our club member, Jim Paterson.	Purchased from the author, 7/3/2002,	302pp. Col photographs
1	Biography		An edited Extract from "The Voyage of the Caroline, 1827" England to Van Diemens Land 1827-8	Lee, Ida	1978	Van Diemens Land Company	Describes the colonisation by Van Diemen's Land Company of Circular Head . Describes their operations/history/land selection & ships voyage	Donated by Elizabeth Glover, 1984	22pp. Pbk
1	Biography		Charles Darwin in Hobart Town	Davies, Margaret (Editor)	Jan 2009	Royal Society of Tasmania	Proceedings of a symposium of this name. The first part consists of papers presented wholly or in part during the symposium and the second part offers annotated guides and discussions on excursions made by Darwin whilst in Hobart.	Donated by David Ratkowsky July 2017.	113pp. Pbk
1	Biography		Citizen Labillardiere. A Naturalist's Life in Revolution and Exploration (1755-1834)	Duyker, Edward	2003	The Miegunyah Press, Melbourne	Biography of Labillardiere one of the great naturalists-travellers of the eighteenth century - this is a comprehensive study of the naturalist, revealing a committed republican. Labillardiere wrote the first general flora of Australia 1804-1806	Review copy	383pp. Hbk, glossary, appendix, notes, zoological, botanical and general indexes.8/8/2003
1	Biography		Hither and Thither - A personal Anthology of a Tasmanian by Choice	Aves, Kelsey	1996	Self published	Autobiography of a devoted nature-lover, conservationist and bushwalker and music supporter of TSO. Covers c.1940-1996	Donated by the author	62pp Pbk
1	Biography		Insect Delight - a life's journey	Evans, John	1989	Brolga Press	Autobiography - will appeal to those interested in natural history and conservation. Insects have lived on this planet longer than the human species, yet damaged it much less.		212pp Pbk
1	Biography		Joseph Banks' Florilegium - Botanical Treasures from Cook's First Voyage	Gooding, Mel (Text on the voyage); Maberley, David (Commentary on plates) ; Studholme, Joe (Afterword on the printing process).	2017	Thames & Hudson Ltd, London	This is the first full colour publication of some of the most extraordinary botanical prints of the 18th century. It is a great scientific record for Banks and Daniel Solander who collected plants at every opportunity and a work of Botanical illustration of outstanding beauty. Includes Gooding's description of the Voyage; Maberley's description of Sydney Parkinson's artwork, his death and the subsequent completion of his paintings and of the engravings. Final chapter Studholme describes the modern printing process.	Purchased Fullers October 2017 \$120.00	320pp. Hbk. With maps and 181 colour plates/ illustrations
1	Biography		King of the Wilderness. The life of Deny King	Mattingley, Christobel	2001	Text Publishing, Melbourne, Australia	Biography of Deny King	Purchased Fullers 2016 \$24.95	334pp. Pbk

Location of Book. Box #	Category	Sub category	Title	Author(s)	Year	Publisher	Comments	Date purchased/Donation etc.	Type
1	Biography		Life and Letters of Sir Joseph Dalton Hooker	Huxley, Leonard	1918	John Murray, London	Based of materials collected and arranged by Lady Hooker, vol 11.	Inscribed in front, Edith Thompson	567pp. Hbk.
1	Biography		Memories of my Father	Elliot, David M.	1991	Self published, South Hobart	E.A. Elliot, doctor and naturalist, was the instigator and a founding member of the Tasmanian Field Naturalists Club. the Club was formed at a meeting in the Royal Society's Rooms on September 15th, 1904. E.A. Elliot was the first secretary, organised the first seven Easter Camps and maintained a strong interest in the Club until his death in 1968.	Donated by the author	64pp. Pbk. b&w photographs
1	Biography		My Birds - Biography John Rowland Skemp	Skemp, John Rowland	1970	CL Richmond & Sons Pty Ltd	The birds in his garden in Myrtle Bank in NE Tas		95pp. Hbk
1	Biography		The Wasp and the Orchid. The remarkable life of Australian Naturalist Edith Coleman	Clode, Danielle	2018	Picador	Over 30 years Edith Coleman would write over 300 articles for Australian nature for Australian publications. She would solve the mystery of orchid pollination. This book sets to uncover Edith's story from her childhood in England and her unlikely success sharing along the way Edith's lyrical and incisive writing and her uncompromising passion for Australian nature and landscape.	Review copy. Donated 2018	420pp. Hbk
1	Biography		The Wasp and the Orchid. The remarkable life of Australian Naturalist Edith Coleman	Clode, Danielle	2018	Picador	Over 30 years Edith Coleman would write over 300 articles for Australian nature for Australian publications. She would solve the mystery of orchid pollination. This book sets to uncover Edith's story from her childhood in England and her unlikely success sharing along the way Edith's lyrical and incisive writing and her uncompromising passion for Australian nature and landscape.	Review copy. Donated 2018	420pp. Hbk
1	Biography		Understanding our natural world - The Field Naturalists Club of Victoria 1880-2015	Presland, Gary	July 2016	FNCV	This is the story of FNCV about thousands of people working together to increase their own knowledge and understanding of the natural history of Victoria. The data recorded by the club through more than 135 years of fieldwork in all parts of Victoria, has been an enormous contribution.....	Purchased FNCV \$24.00. 2016	275pp. Softcover
1	Botany	Alpine	Alpine Plants of Australia	Harris, Thistle Y	1970	Angus & Robertson	First part environment, second by genus and family.	review copy, was \$12 retail	193pp, HB B&W Photos

Location of Book. Box #	Category	Sub category	Title	Author(s)	Year	Publisher	Comments	Date purchased/Donation etc.	Type
1	Botany	Alpine	Alpine Tasmania: An illustrated guide to the flora and vegetation	Kirkpatrick, Jamie	1997	OUP, Melb	Illustrated with photographs by Peter Dombrovskis and line drawings by Georgina Davis. Introductory chapters deal with biogeography, but plant descriptions are the main purpose of the book. Includes a key. The book finishes with chapters on plant communities and conservation. Includes glossary, tables and index.	Purchased TEC	196pp. Pbk.
1	Botany	Alpine	Alpine Wildflowers of Tasmania - Plant Identikit	Collier, Phil	2012. 2nd edn..	Australian Plants Society Inc. Hobart Group	Aims to encourage familiarity with the common and spectacular of Tasmania's alpine plants.		65pp. A6 Pocket sized booklet
1	Botany	Alpine	Flora and Fauna of Alpine Australasia: Ages and Origins. <i>Note: Primarily covers flora but includes chapters on rock wrens in NZ and Lepidoptera fauna</i>	Barlow, Bryan A. (Editor)	1986	CSIRO with Australian Systematic Botany Society	Alpine environments of Australia, New Guinea and NZ differ from each other in terms of topography, genesis, climate & biota and contrast strongly with northern hemisphere alpine habitats. Paleoclimatology, paleobotany, biogeography, ecology and plant and animal systematics have been used here to give an understanding of the bio-historical relationships of these isolated islands of alpine terrain in the southern hemisphere.	Donated by Forestry Tasmania 2017 (Downsize of library)	534pp. Pbk.
1	Botany	Alpine	Kosciusko Alpine Flora	Costin, A B; Gray, M; Totterdell, C J & Wimbush, D J	1979	CSIRO/Collins	Combined effort, commemorates 50th anniversary of CSIRO Div. of Plant Industry	Review copy, price was \$25	408pp Hbk. Col photos.
2	Botany	Bryophytes	Lichens of Rainforest in Tasmania and south-eastern Australia	Kantivilas, G. and Jarman, S.J.	1999	Flora of Australian Supplementary Series Number 9.) Australian Biological Resources Study, Canberra	The cool temperate rainforests in Tasmania provide habitat for a remarkable diversity of lichen flora. This book is both a guide to the lichens, beautifully illustrated by Bruce Fuhrer's clear photographs, and an introduction to their distribution, relationships, biology and the composition of the lichen flora and communities. Includes notes on identifying lichens, a key, glossary references and index.		212pp pub.
2	Botany	Bryophytes	Mosses and liverworts of rainforest in Tasmania and south-eastern Australia	Jarman, S. J. and Fuhrer, B. A.	1995	CSIRO and Forestry Tasmania	This book is an introduction to the Bryophytes (mosses and liverworts) in cool temperate forests and other wet vegetation types. It is not an identification guide, and therefore does not contain scientific descriptions and keys, but is aimed at the non-specialist to increase awareness of a beautiful but largely neglected flora. Bruce Fuhrer's beautiful photographs should inspire us to take a closer look. Contains an index and glossary.		134pp Pbk.

Location of Book. Box #	Category	Sub category	Title	Author(s)	Year	Publisher	Comments	Date purchased/Donation etc.	Type
2	Botany	Bryophytes	Mosses of Dry Forest of SE Australia	Read, Cassia and Slattery Bernard	2014	Friends of Box-Ironbark Forests (Mount Alexander Region, Victoria)	For students and absolute beginners, technically accurate but free of technical language		100pp Pbk
2	Botany	Bryophytes	Tasmanian Lichens - Identification, Distribution and Conservation Status. 1. Parmeliaceae	Kantvilas, G; Elix, JA and Jarman, SJ	2002	ABRS Canberra and the Tasmanian Herbarium. Flora of Australia Supplementary Series No 15	With 148 taxa & 21 genera the Parmeliaceae is the most diverse family in the Tasmanian lichen flora. It includes many of the largest and most conspicuous macrolichens found in Tasmania. The book collates the available floristic distributional and ecological data on the Tasmanian lichen flora.	Purchased Fullers \$39.99 2018	274pp. Softbk
2	Botany	Bryophytes	The Macrolichens of Tasmanian Rainforest: Key and Notes	Kantvilas, G and James, P.W.	1987	Lichenologist 19 (1) 1-28	Key and notes		Research paper reprint. 27pp.
2	Botany	Ferns	Ferns and allied plants of Victoria, Tasmania and South Australia	Duncan, Betty, and Isaac, Golda	1986	Melbourne University Press	The definitive field guide for ferns - comprehensive text and generously illustrated with detailed drawings and Bruce Fuhrers photographs.	Donated by Dr. D.A. Ratkowsky, 1987.	258pp. Hbk. Col. and B&W photographs and line drawings.
2	Botany	Ferns	Ferns of Victoria and Tasmania	Wakefield, NA	1955	Field Naturalist Club of Victoria	Description and illustrations of the 116 species of native fern		71pp. Pbk
2	Botany	Ferns	The Ferns of Tasmania. Their Ecology and Distribution	Garrett, Michael	1996	Tasmanian Forest Research Council, Inc.	Following Michael Garrett's interesting talk and excursion in June, his book is a must. Apart from the identification guide (a photograph, description and distribution map for each species), the book covers fern structure and life cycle; propagation and cultivation; Tasmanian fern flora; ecology and distribution. Includes a field key to the Tasmanian Pteridophytes, glossary and index.	Purchased from Book City, \$45.95, 30.6.00	217pp. Pbk. including colour photos.
2	Botany	Ferns	Victorian Ferns: Description of the Species occurring in the State. (COPY 2)	Bond, Richard and Barratt, Charles	1934	FNCV	Descriptions of all species occurring in the State (Victoria)	Donated by Miss ML Westbrook 1986	64pp. Pbk.
2	Botany	Ferns	Victorian Ferns: Description of the Species occurring in the State. (COPY 1)	Bond, Richard and Barratt, Charles	1934	FNCV	Descriptions of all species occurring in the State (Victoria)	Donated by Frank Green 2004	64pp. Pbk.
2	Botany	Ferns	Ferns of Tasmania	Rodway, Leonard (Government Botanist).	1905	Printed for the TFNC. The Mercury Office, Hobart	Reprint from the Tasmanian Mail articles. Describes all the known ferns at that time		16pp. Reprint
2	Botany	Flora	Aspects of Tasmanian Botany: A tribute to Winifred Curtis	Banks, MR; Smith, SJ; Orchard, AE; Kantvilas, G. (Editors)	1991	Royal Society of Tasmania	A volume devoted to botanical papers published as a tribute to Winifred Curtis. Chapters include: biography; early exploration; microfossil evidence and diverse research papers (Hepaticae; Fungi; Mosses; Monocots and Dicots).	Donated by Forestry Tasmania 2017 (Downsize of library)	247pp. Pbk.
2	Botany	Flora	Collins Field Guide to the Wild Flowers of South-East Australia	Galbraith, Jean	1977	William Collins Sons and Co Ltd	Intended to help ID almost any native plant in temperate eastern Australia		450pp. Hbk
2	Botany	Flora	Flowers of the Field	Johns, Rev. C.A (Revised and edited by Elliot, Clarence)	1908	George Routledge. 2nd edition	Introduction to British Botany [@ 1908] and an explanation of terms etc.	Inscribed in front, G.S. Carruthers, Aug 08	324pp. Hbk

Location of Book. Box #	Category	Sub category	Title	Author(s)	Year	Publisher	Comments	Date purchased/Donation etc.	Type
2	Botany	Flora	Forests and Flowers of Mt Wellington, Tasmania	Curtis, Winifred	undated	TMAG	Provides a simple introduction to the botany of Mt Wellington - suitable for school excursion or resident wishing to know more of the flora		23pp. Pbk.
2	Botany	Flora,	Native Flowers of Victoria	Pescott, E.E..	c. 1914	George Robertson & Co, Melbourne	Early volume that deals with the native flowers of Vic in a popular yet scientific manner.		1128;pp.Hbk. Illustrated
2	Botany	Flora	Nature of the Midlands	Gilfedder, L; Kirkpatrick, JB; Wapstra A & H	2003	Midlands Bushweb	Provides a valuable reference to assist in the improved management of the native flora in the midlands of Tasmania.		168pp Pbk. Photos
2	Botany	Flora	Rainforest Plants of Tasmania - Plant Identikit	Collier, Phil and Howells, Christine	2007	Australian Plants Society Tasmania Inc.	Aim is to encourage familiarity of the common rainforest plants	Purchased Fullers Bookshop 2016 \$8.95.	64pp A6 size
2	Botany	Flora	Tasmanian Flowering Plants - A field guide	Watts, Dave	2018	Pelican Press	An illustrated record with over 300 species of Tasmania's flowering plants. With full colour photographs and descriptive text.	Purchased Fullers Bookshop 2018 \$39.00.	189pp. Soft cover
2	Botany	Flora	Tasmania's Natural Flora - Copy 1	Howells, Christine et al	2012	2nd Edition	Flora of Tasmania with photographs	2014 for ANN	431pp Soft cover
2	Botany	Flora	Tasmania's Natural Flora - Copy 2	Howells, Christine et al	2012	2nd Edition	Flora of Tasmania with photographs	2014 for ANN	431pp Soft cover
2 TO 3 LARGE BOOK. NO BOX	Botany	Flora	Australian Carnivorous Plants	Bourke, Greg; Nunn, Richard	2012	Redfern Natural History Productions	This is the first known complete listing of all currently known Australian carnivorous plants		197pp. Hbk Photos
2 TO 3 LARGE BOOK. NO BOX	Botany	Flora	Flowers and Plants of Victoria	Cochrane, Fuhrer, Rotherham and Willis	1968	FNCV in assoc. with Reed	Australian Flora in Colour series. A comprehensive guide to flowers and plants of Vic.	Donated by M. Westbrook. 1990	large Hbk 216pp. Col photos
2 TO 3 LARGE BOOK. NO BOX	Botany	Flora	Vegetation of Tasmania	Reid, James; Hill, Robert; Brown, Michael and Hovenden, Mark (editors).	1999	Australian Biological Resources Study. Series: Flora of Australia Supplementary Series; no. 8).	A scientific study of all major terrestrial vegetation types (including non-vascular plants) from rainforest to alpine vegetation, as well as introducing climate, geology, the Tasmanian environment and its impact on the vegetation and also discusses the plant fossil record, endemism and conservation. Eucalypts are given in depth treatment because of their importance in the ecosystem, while other less well researched vegetation types are treated more briefly. The final chapter deals with problems of conservation, scientific approaches to conservation and reservation. Includes references and index.	Purchased 65/4/2001, TEC \$60.	453pp. pub. Maps, photographs and diagrams, some col.
3	Botany	Flora	The Student's Flora of Tasmania Part 1 - Copy 1	Curtis, Winifred	1956	University of Tasmania	Definitive Tas keys - Gymnosperms; Angiospermae Ranunculaceae to Myrtaceae	Donated by ML Fraser 1971	240pp. Hbk
3	Botany	Flora	The Student's Flora of Tasmania Part 1 - Copy 2	Curtis, Winifred	1956	University of Tasmania	Definitive Tas key - Gymnosperms; Angiospermae Ranunculaceae to Myrtaceae	Donated by Frank Green	240pp. Hbk
3	Botany	Flora	The Student's Flora of Tasmania Part 2	Curtis, Winifred	1963	University of Tasmania	Definitive Tas key: Angiospermae : Lythraceae to Epacridaceae	Donated by David Ziegeler	475pp. Hbk
3	Botany	Flora	The Student's Flora of Tasmania Part 3	Curtis, Winifred	1967	University of Tasmania	Definitive Tas keys - Angiospermae: Plumbaginaceae to Salicaceae	Presented by Miss FE Warren	661pp. Hbk
3	Botany	Flora	The Student's Flora of Tasmania Part 4A	Curtis, Winifred	1979	University of Tasmania	Definitive Tas key -Monocotyledons - Orchids		138pp Hbk

Location of Book. Box #	Category	Sub category	Title	Author(s)	Year	Publisher	Comments	Date purchased/Donation etc.	Type
3	Botany	Flora	The Student's Flora of Tasmania Part 4B Angiospermae: Alismataceae to Burmanniaceae	Curtis, Winifred M. and Morris, Dennis I	1994	St David's Park Publishing, Hobart	This final part of <i>The Student's Flora</i> describes the remaining monocotyledons (the orchids were described in Part 4A), including freshwater aquatic plants; rushes; estuarine and coastal ; sedges; grasses, irises; lilies and grass-trees.	Purchased 12/6/01, Government Info Shop, \$28.50	459pp. Hbk. Line art illustrations.
3	Botany	Flora	Wattles of Tasmania	Simmons, Marion H.	2009	Self published	Useful tool for naturalists, gardeners who would like to grow Tasmanian Wattles in their garden etc. Book includes 20 species as well as four introduced species. Illustrated to life size showing foliage, flowers and seed pods.	Purchased Fullers 2016 \$9.95	64pp. Spiral bound booklet
3	Botany	Flora	Wildflowers of Mt Wellington - Plant Identikit	Collier, Phil	1988	Society for Growing Australian Plants	Mt Wellington Plant IDs		64pp. A6size
3	Botany	Flora	Wildflowers of Tasmania - Plant Identikit	King, H.J. and Burns, T.E..	1969	Jacaranda Wildflower Guides no.5. Jacaranda Press	Native Plants of Tas	Donated by Marjorie Westbrook 1986	106pp. A6 size
3	Botany	Flora	Wildflowers of the Warm East Coast - Plant Identikit [of mainland Australia]	Scarth-Johnson, Vera	1967	Jacaranda Press	descriptions and paintings of abt. 48 East coast of mainland Australia flowering plants	Donated by Marjorie Westbrook 1986	106pp, A6 size
3	Botany	Flora	Woodland Wildflowers of Tasmania - Plant Identikit	Collier, Phil, Howells Christine	2006	Society for Growing Australian Plants	Describes wildflowers found in Lowland woodlands and heathlands, mostly in the north and east of the state. (excludes coastal and alpine species)	Purchased Fullers Bookshop 2016 \$8.95	64pp. A6size
3	Botany	Flora	The Tasmanian Flora	Rodway, Leonard	1903	Govt. Printer, Hobart	With some drawings of typical species. Precursor to the Winifred Curtis volumes		320pp. Hbk.
3	Botany	Flora Aquatic	A Guide to the plants of Tasmanian Saltmarsh Wetlands	Prahalad, Vishnu	2014	UTAS	Comprehensive user guide to the unique flora of an enchanting ecosystem that adorns much of coastal Tasmania		82pp. Soft cover
3	Botany	Flora Aquatic	Freshwater Algae in Australia (A Guide to Conspicuous Genera).	Entwisle, Timothy J., Sonneman, Jason A. and Lewis, Simon H.	1997	Sanity and Associates	The book is mainly a schematic key with coloured photographs and diagrams. A short introductory section deals with collecting, storage and preservation; habitats; microscopy; and management of algal blooms. Includes references and index.	Purchased from TEC	242pp. colour photos, pub
3	Botany	Flora Aquatic	Marine Plants of Tasmania	Scott, Fiona J.	2017	TMAG	A colourful introduction to Tasmania's often unique marine flora. Flora has been selected from estuaries, rocky reef habitats and kelp forests	Purchased TMAG November 2017	
3	Botany	Flora Aquatic	Seaweed - Art Meets Science	Wallace, Ian (Photographer)	2010	Ian Wallace	A collection on photographs from the 2010 exhibition with the same name as the book title. These images are the closest the author can get to the feeling he gets whilst exploring the seascapes around the Tasmanian coast.	Donated by Dr Helen Fitton (Marinova)	52pp. Hbk

Location of Book. Box #	Category	Sub category	Title	Author(s)	Year	Publisher	Comments	Date purchased/Donation etc.	Type
3	Botany	Flora Aquatic	Tasmanian Streambank Plants	Glazik, Rae & Askey-Doran, Michael	2004	Department of Primary Industries, Water and Environment, Hobart	A guide to common plants along streams		80pp. Soft cover. Illustrations.
3	Botany	Grasses	Common Grasses of Tasmania: An Agriculturalists' Guide	Lane, P., Morris, D. and Shannon, G.	1999	Tasmanian Environment Centre, Hobart	This book provides clear descriptions of the more common grasses in Tasmania, concentrating on those of agricultural significance. The descriptions are divided into three groupings, native/pasture, introduced/pasture and introduced/weed grasses. A double page spread is devoted to each species with a description and photograph of the plant as well as diagrams of identifying features. Although the book only covers a small proportion of the total number of species in the state, notes on similar species are included at the foot of each description. The book includes a glossary. Given that grasses form such an important component of our landscape, this is a useful guide.		83pp Pbk
3	Botany	Names	Name That Flower - The identification of flowering plants	Clark, Ian, and Lea, Helen	2003	Melbourne University Publishing Limited	Provides information on how to go about identifying flowering plants scientifically and properly (and not just from photographs!) - includes structure of flowers and the process of identification. Aims to make the naming of flowers a little easier. Should be used in conjunction with field guides and floras.	Review copy from MUP	299pp. Soft cover
3	Botany	Names	The little Book of Common Names for Tasmanian Plants	Wapstra, H&A&M; Gilfedder, L	2005	Dept. Primary Industries, Water & Environment, Tas	Checklist of common names of Tasmanian plants		88pp. booklet Pbk, addendum insert 2007, 1/2 A4 size
3	Botany	Names	West Aust. Plant Names and their Meanings	Sharr, F A	1978	Uni of WA press	Pbk glossary, alphabetical genera, then species Revised 1988 ddn581.03		228pp. Pbk
4 LARGE BOOK RH SIDE OF BOX. NOT IN BOX	Botany	Orchids	Orchids of Australia (The Complete Edition).	Nicholls, W.H. Paintings by W.H. Nicholls with descriptive text by D.L. Jones and T.B. Muir	1969	Nelson	Makes available in one volume the definitive work of WH Nicholls		141pp. Large Hbk 475col plates(drawings)
4 SMALL PAMPHLET BOX	Botany	Orchids	Australian Orchid Research Vol 3 - contributions of Tasmanian Orchidology 1-9	Jones, David L	1998	Australian Orchid Foundation	Published contributions to Tasmanian Orchidology 1-9		224pp Soft cover. B&W drawings and Col Photos
4 SMALL PAMPHLET BOX	Botany	Orchids	Common Orchids of Tasmania - Plant Identikit	Collier, Phil	2010	Australian Plants Society Tasmania. Inc.	Major revision of 1993 publication. Illustrations and descriptions of the most commonly found species, which were sometimes chosen to represent a group of species.	Purchased Fullers Bookshop 2016 \$8.95	64pp. A6 size.

Location of Book. Box #	Category	Sub category	Title	Author(s)	Year	Publisher	Comments	Date purchased/Donation etc.	Type
4 SMALL PAMPHLET BOX	Botany	Orchids	The Orchids of Tasmania. <b>NOTE: SHORT TERM LOAN ONLY.</b>	Jones, David; Wapstra, Hans; Tonelli, Peter & Harris, Stephen	1999	The Miegunyah Press, Melbourne	A detailed guide to every known orchid in Tasmania. Introductory chapters on habitats, conservation and notes on orchids are followed by a key to the genera, and a key to orchid leaves. The book is clearly set out with a page devoted to each species, including its description, photograph and locality map. These are preceded by notes on the genus, often with explanatory drawings and for the larger genera, a key a key to the species. Includes glossary, references, and index to the species and a checklist of the species, as well as an appendix on orchid taxa erroneously recorded for Tasmania.		408pp Hbk.
5 SMALL PAMPHLET BOX	Botany	Trees	Australian endangered Species: Eucalypts	Pryor, L D	1981	Australian National Parks & Wildlife Service	In 1977 ANP&WS engaged Pryor to examine current position of endangered and rare Eucalypts. Special pub no 5		139p Pbk B&W maps, photos
5 SMALL PAMPHLET BOX	Botany	Trees	EucaFlip	Wiltshire, Rob & Potts, Brad.	2007	CRC for Forestry, UTAS	A portable, all-weather, easy to use reference for bushwalkers, naturalists and botanists		Fold up 'map' 30species +glossary
5 SMALL PAMPHLET BOX	Botany	Trees	Forest Trees of Tasmania - Field Guide. Copy 1	Naughton, Peter (Ed)	1995 revised	Forest Resources	pocket sized book to be used a guide in the field to Tree ID	donated by Forest resources	116pp Pbk small
5 SMALL PAMPHLET BOX	Botany	Trees	Forest Trees of Tasmania - Field Guide. Copy 2	Naughton, Peter (Ed)	1995 revised	Forest Resources	pocket sized book to be used a guide in the field to Tree ID	donated by Forest resources	116pp Pbk small
5 SMALL PAMPHLET BOX	Botany	Trees	Native Trees of Tasmania	Kirkpatrick, J.B. : Backhouse Sue	1997	Pandani Press	user friendly guide to the identification f Tasmanian native trees		135pp. Soft cover
5 SMALL PAMPHLET BOX	Botany	Trees	Our Own Trees: A First Book on the Australian Forest	Vidler, Edward A	1930	WA Hamer, Melbourne	elementary book on Australian Trees		64pp. Pbk
5 SMALL PAMPHLET BOX	Botany	Trees	Rainforest Trees of Mainland South- eastern Australia	Floyd, A.G., (Forestry Commission on NSW)	1989	Inkata Press	A fully illustrated description of all 385 recognised rainforest tree species (as at 1989) Includes keys. (Does not include Tas endemics)	Donated by Forestry Tasmania 2017 (Downsize of library)	420pp. Hbk
5 SMALL PAMPHLET BOX	Botany	Trees	Tasforests Volume 8 journal	Forestry Tasmania	1996	Forestry Tas	Articles on Eucalypts, history, key distribution		166p Pbk journal B&W drawings photos, maps
5 SMALL PAMPHLET BOX	Botany	Trees	Tasmanian Timber Trees	Somerville, Janet	1950	Education Department, Tasmania	Written for students. Visual Aids Bulletin no. 3. Drawings and descriptions of Tasmania's timber trees	Donated by Miss M Westbrook. 1990	26pp B&W photos, Drawings
5 SMALL PAMPHLET BOX	Botany	Trees	The Hidden Life of Trees - What they feel. How they communicate.	Wohlleben, Peter	2015	Black Inc. Books	Are trees social beings? The case is made that the forest is a social network by protecting, communicating and warning other trees of impending dangers etc..	Purchased Fullers May 2017	272pp. Pbk
5 SMALL PAMPHLET BOX	Botany	Trees	The Natural distribution of Eucalypts in Australia	Chippendale, George M & Wolf, Ludek	1981	Australian National Parks & Wildlife Service	Special pub no 6; Maps, NO Drawings or Photos of species		192pp Pbk B&W maps
5 SMALL PAMPHLET BOX	Botany	Trees	TreeFlip	Wiltshire, Rob & Jordan, Greg	2009	CRC for Forestry, UTAS	A portable, all-weather, easy to use reference for bushwalkers, naturalists and botanists		Fold up 'map" 31species +glossary

Location of Book. Box #	Category	Sub category	Title	Author(s)	Year	Publisher	Comments	Date purchased/Donation etc.	Type	
5 TO 6 BOOK BOX	LARGE NO	Botany	Trees	A survey of Huon Pine in the Piemena River State reserve and Environs	Pedley, J, Brown, MJ, & Jarman, SJ	July 1980	National Parks and Wildlife Service, Tasmania	Presents the results of a survey of Huon Pine in the Pieman River State Res and its environs. It forms part of a continuous programme of investigations into the conservation of flora in Tasmania.		67pp. Soft bk A4
5 TO 6 BOOK BOX	LARGE NO	Conservation	Fauna	Bugs, Birds, Bettongs & Bush: maintaining habitats for fauna in Tasmania	Visoiu, Micah & Lloyd, Sarah	2003	Bushcare Technical Extension, Nature Conservation Branch, Resource Management and Conservation, DPIWE, Hobart	Overview of the principles of managing native vegetation, so it provides good habitat for native animals. Background info on the fauna of Tasmania and its diversity is also included.	Kit 10 of the Tasmanian Bushcare Toolkit	81pp Booklet spiral bound
5 TO 6 BOOK BOX	LARGE NO	Conservation	Fauna	Feral Animals, Threatened Species and the Role of the Community	Threatened Species Network, Hobart	March 2005	Threatened Species Network	Forum Proceedings. Aim was to identify how the Tasmanian Community can contribute to controlling feral animals and what can be done to facilitate the action and build community capacity. Sessions included feral cats; invasive marine species; Carp; feral and introduced birds; Bumblebee; Gambusia & Chytrid		120pp. Pbk. A4
5 TO 6 BOOK BOX	LARGE NO	Conservation	Fauna	Tasmania's Threatened Fauna Handbook: What, Where and How to Protect Tasmania's Threatened Animals..	Bryant, Sally and Jackson, Jean.	1999	Threatened Species Unit, Parks and Wildlife Service, Tasmania,	This book profiles every native species listed by mid 1999 on Tasmania's Threatened Species Protection Act 1995 and the Commonwealth Endangered Species Protection Act 1992. Other species not listed but believed to be at risk are also included. The book is divided into three sections, the first identifies locations where threatened species occur, using a system of 1:25,000 Tasmans. Section 2 profiles the listed animals, and the third section is a quick reference guide on broad habitat types. There is also a description of the specialist habitats of caves, and of Great Lake. The spiral binding is a bit difficult on such a heavy volume.	Purchased DPIWE 12/7/02 \$40	428pp. Pbk. line drawings
5 TO 6 BOOK BOX	LARGE NO	Conservation	Flora	The Disappearing Heath: A Study of the conservation of the coastal heath plant communities of north and east Tasmania and the Furneaux Group	Kirkpatrick, J.B.	1977	Tasmanian Conservation Trust	First book devoted to composition and extent of heathlands in Tasmania	Donated by the Tasmanian Conservation Trust Inc.	96pp. Pbk
6		Botany	Weeds	Environmental Weeds: A field Guide for SE Australia	Blood, Kate CRC Weed Management Systems	2001	CH Jerram Science Publishers	A field guide divided into sections covering trees; shrubs; climbers and creepers; herbs and succulents; and grasses. Descriptions include notes on ecology, origin, habitat the weed is likely to invade, and how the plant spreads. Coloured photographs and distribution maps. Includes index.	Purchased CSIRO 29/7/02	228 pp. Pbk. col. photographs

6	Botany	Weeds	Weeds of the South-east. An identification Guide for Australia.	Richardson, FJ; Richardson RG, Shepherd RCH	2016. 3rd edition	Self-published	A comprehensive ID guide for weeds in the SE of Australia. This field guide is for anyone interested in ID-ing pest plants and the preservation of our native flora. An essential tool for all naturalists. An excellent book!	Purchased FNCV \$64.00. 2016	522pp. Soft cover
6	Conservation	Fauna	<i>Gambusia holbrooki</i> - A Management Guide and Workbook	Milner, Rodney	June 2006	National Heritage Trust	Provides the tools to enable those working in the conservation and natural resource management field to maintain the momentum gained over the last two years in addressing the <i>Gambusia</i> problem in Tasmania		50pp. Spiral Spiralbnd
6	Conservation	Flora	Bush Regeneration	Bradley, Joan	1971	Mossman Parklands and Ashton Park Association	Practical ways to eliminate Exotic plants from Natural Reserves		15pp. Booklet
6	Conservation	Flora	Conservation of Flora in Tasmania	Brown, MJ; Hoggins, DD & Bayly-Stark HJ	Aug 1977	National Parks and Wildlife Service, Tasmania	The Status of Plant Species which are Primitive, Endemic or of Geographical Significance		65pp. Pbk. A4
6	Conservation	Flora	The Disappearing Heath: Revisited	Kirkpatrick, J.B. and Harris, S.	1999	Tasmanian Environment Centre Inc. Hobart	Chapters in this interesting book cover history, (including pre-human evolution of heath), ecology, different heath communities, the flora, significant species and conservation. Illustrated with line drawings by Georgina Davis and a few coloured photographs. A third of the book is taken up with appendices devoted to distribution maps and percentage frequency of species in particular communities.		210pp pub
6	Conservation	Flora	The Guidelines for Bush Corridors	Hussey, Baja, Hobbs, RJ, Saunders DA	1989	CSIRO Div. Wildlife & Ecology. WA	Conference held in Busselton WA in 1989 presents the principal finds of that conference		19pp Booklet
6	Conservation		Discovering Tasmania's Ramsar Wetlands	Thorp, Veronica	2002	Natural Heritage Trust & Tasmanian Environment centre Inc.	Describes Tasmania's 10 most precious wetlands.		25pp. Booklet Sbk
6	Conservation		Keeping it Clean - A Tasmanian field hygiene manual to prevent the spread of freshwater pests and pathogens	Allan, Kaylene; Gartenstein, Simon	March 2010	NRM South, South Hobart	The manual provides information on how to prevent the spread of freshwater pests and pathogens in Tasmanian waterways, wetlands, swamps and boggy areas. It is intended primarily for people who work in these areas, but also will help recreational visitors to understand the risks and act accordingly.	Donated by Magali Wright, NRM South October 2017	70pp. Spiral bound. Sbk
6	Conservation		Wild Solutions. How Biodiversity is Money in the Bank.	Beattie, Andrew and Ehrlich, Paul; illustrations by Turnbull, Christine	2001	Melbourne University Press	This book explains with many examples, and in a very readable style, how biodiversity is valuable to us from a human point of view.	Reviewed by Owen Seeman in The Tasmanian Naturalist no 123, 2001, p. 59.	239pp. Hbk. line drawings. Review copy

6	Geology		Wonderstruck - treasuring Tasmania's caves and karst	Haygarth, Nic	2016	Forty South Publishing, Lindisfarne 7015	Caves are places of wonder and mystery. By 1840 a Gothic regime of candles and bark torches. heightened the thrill of the 'Sublime' within Wet Cave on Mole Creek, in northern Tasmania. More than a dozen Tasmanian tourist caves, from Gunns Plains to Ida Bay, have glistened in guiding light. Farmers turned to home-baked hospitality when the Industrial Revolution mobilised urban excursionists, opening private 'show' caves by the glow of acetylene gas. After World War II, Sam Carey's Tasmanian Caverneering Club, the first Australian caving club, began a quest to discover, record and protect Tasmanian caves which continues today. Wonderstruck: treasuring Tasmania's caves and karst is the story of these journeys of subterranean discovery, the myths and the legends, the explorers and the ecological battlegrounds, the 'master' caves and the megafauna dens, the entrepreneurs and the raconteurs.	Review copy	313pp Softbk.
6	Geology		Step into History in Tasmanian Reserves.	Leaman, David	2001	Leaman Geophysics, Hobart	This is an extension of Leaman's previous book, Walk into History in Southern Tasmania, this time covering the state's parks and reserves. A geological overview provides a foundation before the book launches into detailed descriptions of walks within the state's parks and reserves. Leaman covers anything from Federation Peak to the Creepy Crawly Nature Trail. In fact he goes into more depth for the shorter walks, and provides interesting historical and geological information for each area. The book contains a wealth of excellent photographs as well as a glossary, index and reading list. An interesting addition is an appendix discussing park and reserve management.	Purchased 14/3/02, Tasmanian Environment Centre Inc. \$31.45	416pp. Softbk. Line maps and diagrams; col photographs

6	Geology		Walk into History in Southern Tasmania.	Leaman, David	1999	Leaman Geophysics, Hobart	This is not a conventional walking guide or a geology field guide, but an interesting mix, describing 64 reasonably accessible day walks in the southern region. Most of these walks are centred about Hobart and Mt Wellington, extending as far as Orford, Huon and Channel and Tasman Peninsula. They are not just walks but insights into the places in terms of their natural history, dependent on the underlying geology, as well as the more recent human history. The author also reviews several controversial planning issues and major developments where geology has been given inadequate attention, in the hope that such mistakes can be avoided in the future. Members who attended David's talk and outing last year will remember the Long Beach dune saga at Sandy Bay, and the issues vexing the cliffs at Tarroona.		282pp Pbk.

8	Invertebrates	Freshwater	Colour Guide to Invertebrates of Australian Inland Waters: ID Guide No.8	Hawking, John H. and Smith, Felicity J.	1997	Co-operative Research Centre for Freshwater Ecology, Murray-Darling Freshwater Research Centre, Albury	This field identification guide to freshwater invertebrates is designed for students, field ecologists, amateur collectors, fishermen and community riverwatch workers. It lists the invertebrates in taxonomic groups: the sponges, hydras, jellyfish, primitive worms; polychaetes; segmented worms, leeches; freshwater snails and mussels; water mites; crustaceans,; and the bulk of the book is dedicated to the insects. Colour photographs of 200 of the more easily recognisable organisms aids with identification. Each section begins with features of the group, then broad classification. Descriptions go to family or genus level and include size; habitat; distribution; and trophic status, and the number of recorded species is given. Each section is colour coded for quick field reference. Includes references and glossary.	Purchased from the publishers 1/5/02 \$26.40 + \$5 postage.	213pp. pub. Col photographs
8	Invertebrates	Freshwater	The Waterbug Book: A Guide to Freshwater Macroinvertebrates of Temperate Australia	Gooderham, John, and Tsyrlin, Edward	2002	CSIRO Publishing	A field guide written with a refreshing touch of humour. The book is arranged by animal groups, and includes identification keys and a wealth of excellent photographs. The introduction includes an explanation of the SIGNAL system for water quality testing. The book finishes with references, glossary and index.	Purchased CSIRO 29/7/02	232pp. pub. Ill. col. photographs and line diagrams
8	Invertebrates	Insects	A Guide to Stag Beetles of Australia	Hangay, George, and De Keyzer, Roger	2017	CSIRO	A comprehensive account of the 95 lucanid species found in Australia - it reveals their diversity and beauty and looks in detail at their morphology, habitats and ecology and explains how to collect and preserve them.	Purchased CSIRO June 2017 \$49.95	245pp Soft cover

8	Invertebrates	Insects	A Naturalists Guide to the <b>Insects of Australia</b>	Rowland, Peter & Whitlock, Rachel	2019	Australian Geographic & John Beaufoy Publishing	An easy to use identification guide covering 292 of Australia's common and iconic insect species. For each family, genus or species.. the authoritative text describes identifying features, distribution, habitat and habits	Signed by the authors. Donated by Kristi Ellingsen in 2019 - who has a number of her photos published in this book.	176pp Soft cover
8	Invertebrates	Insects	Australian Butterflies	Common, I.F.B	1964	Jacaranda Press	photographs by Ederic Slater B&W and Col	Donated by Marjorie Westbrook1986	131pp, pocket
8	Invertebrates	Insects	Butterflies of Tasmania - Copy 1	McQuillan, Peter; Virtue, Julie	1994	Tasmanian Field Naturalists Club Inc.	Aims to provide information to aid the identification of butterflies. Most can be ID'd from the illustrations, but explicit points of distinction are included in the text as required	Acquired for ANN 2014	104pp, Pbk, colour drawings of each of 39 species
8	Invertebrates	Insects	Butterflies of Tasmania - Copy 2	McQuillan, Peter; Virtue, Julie	1994	Tasmanian Field Naturalists Club Inc.	Aims to provide information to aid the identification of butterflies. Most can be ID'd from the illustrations, but explicit points of distinction are included in the text as required	Acquired for ANN 2014	104pp, Pbk, colour drawings of each of 39 species
8	Invertebrates	Insects	Caterpillars, Moths and their Plants of Southern Australia	McQuillan, Peter; Forrest, Jan; Keane, David; Grund, Roger	2019	Butterfly Conservation, South Australia Inc.	A total of 280 species of southern Australian moths are illustrated and mentioned. Tas distribution maps are included for each species. The book describes the characteristics typical of each family group and each type of moth and caterpillar. Native and introduced plants associated with each moth species are listed, noting their importance as food for caterpillars and highlights the need to conserve remaining native habitats and their biota.	Purchased TMAG Feb 2020 \$39.95	196pp. Soft cover. Inc 650 photographs
8	Invertebrates	Insects	Collecting and Sampling Insects	Endersby, Ian	2009	Entomological Society of Victoria	the how to guide for collecting and preserving insects in a collection		28pp. soft cover booklet
8	Invertebrates	Insects	Common Eggfly ( <i>Hypolimnas bolina</i> (Fabricus) in Tasmania	Bennet, Michael & Poole, Lyndel	2001	Self-published	Unusual (vagrant?) sighting of the Common Eggfly butterfly in Tasmania . (ref also: The Tasmanian Naturalist 2000 #122 pp57-58. In 2016 converted to CD-R and a copy was donated to the Insects of Tasmania website via Kristi Ellingsen	Donated by the authors	CD-R
8	Invertebrates	Insects	Dragonflies and Damselflies of Victoria and Tasmania	Richter, Reiner & Endersby, Ian	2019	Entomological Society of Victoria	All known species from Victoria and Tasmania are presented in this book, beautifully photographed in their natural habitat. Distribution maps and flight times are presented for all and in most cases both males and females are clearly shown for field identification	Purchased from the publishers. Nov 2019 \$30	163pp. Soft cover

Location of Book. Box #	Category	Sub category	Title	Author(s)	Year	Publisher	Comments	Date purchased/Donation etc.	Type
8	Invertebrates	Insects	Expedition Field Techniques. Insects and other terrestrial arthropods. Reprint	McGavin, George C.	2007	Geography Outdoors: Royal Geographical Soc with IBG, London.	Essential information on what the author considers to be the most useful field techniques appropriate to expeditions - mainly concerned with insects, but many of the techniques are appropriate for collecting many other sorts of arthropod such as spiders.		68pp. Spiral bnd.
8	Invertebrates	Insects	Insect Pests of Trees and Timber in Tasmania	Elliott, HJ & de Little DW	c. 1983	Forest Commission of Tasmania	This book contains information on the main insect pests of tree and timber in Tasmania together with details of the damage they cause and the best means of control. Colour photographs enable easy ID of the common pests	Donated by Forestry Tasmania 2017 (Downsize of library)	90pp. Pbk booklet
8	Invertebrates	Insects	Insects of Australia. (Green Guide).	Zabrowski, Paul	2002	New Holland	This is not a field guide but an interesting introduction for those who are not already experts in entomology. Chapters are divided according to insect biology, habitat and behaviour rather than taxonomy. This book will appeal to older children as well as adults. Includes an index and a checklist of Australian insect groups.	Purchased CSIRO 29/7/02	97pp. Pbk. col. photographs
8	Invertebrates	Insects	Jewel Beetles of Tasmania - A Field Naturalists Guide. (Copy 1)	Cowie, David	2001	Tasmanian Field Naturalists Club Inc.	This book contains the details and images about the approx. 50 species of jewel beetles known to occur in Tasmania, some species are common but others rarely seen. Tasmanian species are smaller and less brightly coloured than their tropical cousins.		41pp. Booklet
8	Invertebrates	Insects	Jewel Beetles of Tasmania - A Field Naturalists Guide. (Copy 2)	Cowie, David	2001	Tasmanian Field Naturalists Club Inc.	This book contains the details and images about the approx. 50 species of jewel beetles known to occur in Tasmania, some species are common but others rarely seen. Tasmanian species are smaller and less brightly coloured than their tropical cousins.		41pp. Booklet
8	Invertebrates	Insects	Living Lights - The Glow-worms of Australia and New Zealand	Plowman, Cathie with Merritt, David. Illustrations by Janet Fenton	2013	Plowman, Cathie. Maps & photos
10	Natural History	Tasmania	The Woodpecker Papers: Talks with a Naturalist. Tales of Tasmania in the late 1800's.	Atkinson, Reverend Henry Dresser	2001	This edition self published by the author's grand-daughters, Hobart. First published as a series in <i>Church Messenger</i> , <i>Church News</i> and <i>Tasmanian News</i> .	Rev. Atkinson was so fascinated by Mt Wellington when he arrived in Hobart Town on a "round trip" in 1868, that he left the ship and spent the rest of his life exploring here. These tales and observations are from all over the state, and it is heart-warming to see such a strong conservation ethic so early in our history.	Donated to the club by Isa Hurburgh in memory of Mark (1916-2000), who was a keen field nat. all his life	296pp. Pbk. Line drawings

Location of Book. Box #	Category	Sub category	Title	Author(s)	Year	Publisher	Comments	Date purchased/Donation etc.	Type
11	Natural History Regional Guide	Tasmania	Tasmania's offshore Islands: seabirds and other natural features	Brothers, Nigel; Pemberton, David; Pryor, Helen & Halley, Vanessa	2001	Tasmanian Museum and Art Gallery, Hobart	A fascinating book, focussing on seabird populations on 280 of Tasmania's offshore islands. Islands are important as significant refuges for a diversity and abundance of wildlife. The book is the result of twenty years of meticulous field study by Parks and Wildlife biologist Nigel Brothers. The book begins with a summary of the salient characteristics of each of the breeding seabirds, including distribution, breeding and migration patterns. Then the islands are described, divided into geographic regions with location maps. Each individual island's topography, landscape features and geology are briefly summarised, with a topographic map, before the breeding seabird species are listed and discussed, and dominant vegetation noted. Human history is not discussed apart from briefly listing human-made structures present. As well as a general subject index the book includes a bird index and island index. Appendices include information on land tenure and conservation status, common and scientific names for flora and fauna, and a table of islands on which no breeding seabirds are found. References and bibliography included.	Purchased 3/5/01, T.M.A.G. \$49.95	643pp. pub. Maps & col. photographs
11	Natural History Regional Guide	Tasmania	The Future of Lake Pedder	Lake Pedder Committee of Enquiry. The Australian Government, Canberra.	June 1973	Reprinted by the Lake Pedder Action Committee	Report of the Lake Pedder Committee of Enquiry June 1973		70pp. Pbk

13	Vertebrates	Mammals	The Mammals of Tasmania. Copy 2.	Green, R H	1973	self published, Launceston	Systematically lists and describes all the mammals in Tas. Both native and introduced		76pp. Soft cover. A5
13	Vertebrates	Mammals	The Platypus. A Unique Mammal	Grant, Tom. Illustrations by Fanning, Dominic	1989	NSW University Press	This book confines itself to the known facts...which surround the platypus	donated by author	73pp . Soft cover
13	Vertebrates	Mammals	The Wombat - Common Wombats in Australia	Triggs, Barbara, illustrations by Goldingay ,Ray	1988	NSW University Press	full account of the Wombat way of life above and below ground	Reviewed by Don Hird 1989 and then donated to the TFNC Library	141pp. Soft cover
13	Vertebrates	Mammals	Thylacine	TMAG	1976	TMAG info leaflet	Summary of known information about the Thylacine		A5 leaflet
13	Vertebrates	Mammals	Thylacine: The Tragedy of the Tasmanian Tiger	Guiler, Eric R	1985	OUP, Melbourne	Traces the history of the Thylacine from fossils to the present day	Reviewed by D Ratkowsky in Tas Naturalist 1985.	207pp Hbk. A few maps B&W photos
13	Vertebrates	Mammals	Tracks, Scats and Other Traces: A Field Guide to Australian Mammals	Triggs, Barbara	1999	OUP, Melbourne	This edition is much more comprehensive than the previous edition. The guide is divided into four sections dealing with tracks; scats; shelters, feeding signs and other traces; and bones of Australian mammals. Each section introduces the reader with general information, followed by a separate key designed to lead you to specific information helpful in identifying your find. Photographs of tracks include a scale, and diagrams of tracks are also helpful. Detailed drawings of the underside of the animal's foot are an interesting addition. Distribution maps for each species are given within the Scats section. Colour photographs of scats and shelters are included, while b&w photographs of skulls, lower jaws, humeri and femurs (with scales) make these easier to identify. Domestic and introduced mammals are also included. Includes bibliography and index.	Purchased TEC \$32.90	340pp. Pbk. Some colour photographs.
13	Vertebrates	Mammals & Reptiles	Tasmanian Wild Life	Sharland, Michael	1962	Melb Uni Press	Field study reference book for all the mammals and snakes of Tasmania (as known up to 1962)	Review copy. Donated 1962	86pp Hbk

13	Vertebrates	Reptiles & Amphibians	Tadpoles of South-eastern Australia. A Guide with Keys	Anstis, Marion	2002	World Wildlife Fund for Nature. New Holland	It is much easier to find tadpoles than frogs, but how to identify them was the difficulty. This is a rigorously detailed book setting out to solve this problem. After some background on frog classification, developmental stages and conservation issues as well as notes on collecting and raising tadpoles, there are detailed keys covering tadpole, egg and embryo. Section three covers the species in south-eastern Australia, grouped by family. Two or more pages are devoted to each species, with colour photographs of both the frog and tadpole stages, a distribution map, line and stipple scientific illustrations of each tadpole and its oral disc (one of the chief identifying features). There are descriptions of embryos and tadpoles as well as notes on distribution and breeding sites, metamorphosis and similar species. Contains index and references. The author has certainly put many years of research into this book. The beautiful illustrations are all her own work, and she is also responsible for most of the photographs.	Purchased CSIRO 30/9/02 \$59.95	281pp. Hbk. Col. photographs; b&w line drawings
