\$10 (\$45 on-line/ Nokomis etc..)	Vertebrates/ Reptiles & Amphibians	Tadpoles of South-eastern Australia. A Guide with Keys published 2002 WWFUND for Nature New Holland	Anstis, Marion Paperback (Whiteley Medal winner 2002)	It is much easier to find tadpoles than frogs, but how to identify them was the difficulty. This is a rigorously detailed book setting out to solve this problem.there are detailed keys covering tadpole, egg and embryo. Section three covers the species in south-eastern Australia, grouped by family. Two or more pages are devoted to each species, with colour photographs of both the frog and tadpole stages, a distribution map, line and stipple scientific illustrations of each tadpole and its oral disc (one of the chief identifying features). There are descriptions of embryos and tadpoles as well as notes on distribution and breeding sites, metamorphosis and similar species.
